NOTE: Two Greek letters, from ancient times, had fallen from use by the time the New Testament was written. *Digamma* had a value of 6 and *Qoppa* had a value of 90. The original text of the New Testament was written all in upper-case letters. In modern lower-case writing one Greek letter, *Sigma*, has a final form and this has been given the value of 6. In Bible numerics, *Sigma* is always calculated as 200 because this was its value at the time of writing of the New Testament. There is therefore no letter with value 6 and no letter with value 90.
